DOT GOV COORDINATED DISCLOSURE TIMELINE

Over the past two years, as a part of growing concerns around cybersecurity and how it affects many aspects of US citizen and consumer life, the federal government has put forth a wide variety of recommendations to improve cybersecurity posture, of which coordinated disclosure is a significant and recurring component.

2015

05/2015 The House Energy & Commerce (HEC) committee sends out a formal written request to auto manufacturers raising questions about concerns with cyber.

2016

01/2016 The Food & Drug Administration (FDA) hosts a workshop outside of Washington DC to discuss cybersecurity best practices for medical device manufacturers.

| Severe Lack of Security Talent | The majority of health delivery orgs lack full-time, qualified security personnel |
| Legacy Equipment | Equipment is running on old, unsupported, and vulnerable operating systems. |
| Premature/Over-Connectivity | 'Meaningful Use' requirements drove hyper-connectivity without secure design & implementation. |
| Vulnerabilities Impact Patient Care | One security compromise shut down patient care at Hollywood Presbyterian and UK Hospitals |
| Known Vulnerabilities Epidemic | One legacy, medical technology had over 1,400 vulnerabilities |
